

My name is Anita Hegyi. I'm 21. I'm a second-year student of the Russian Faculty at the University of Szeged. I speak English and Russian. I started Russian five years ago and I like studying Russian because it is a very interesting language and I think I'll be able to use it in many countries like Bulgaria, Ukraine and so on. Three years ago I was in Russia and it was a wonderful experience for me. I plan to continue my studies in Russia.

After finishing university I'll be a tourist guide because I like to communicate with people and I would like to meet different cultures. I'm interested in cultures of foreign countries, mainly the culture of eastern countries. In this summer I'll travel to Bulgaria and have professional experience as a tourist guide.

In my free time I do some trips to the nature.

I'm glad to be a guide of the Armenian team because I can show them our culture and my country and I hope they will enjoy the time spent in Hungary.
