

Hi! I am a student at the Spanish department of the ELTE University in Budapest. I want to show you the best places in Budapest, as I love to guide people around my city. I also love to travel and meet nice and cool people, so I have probably met some of your countrymen as well before. Languages, sports and getting to know others are my hobbies, as well as juggling. I love basketball, swimming and skiing but I also like to bike and do trips in the mountains. I spent 5 months teaching English in Manaus, Brazil, and it was one of the greatest experiences in my life. I traveled all around the Amazonas during that time and I met some extraordinary people, hopefully I will be able to meet them again soon. I hope to work in economic assistance and cooperation in the future. Until then I will try to have a great time in Budapest with you!

Zsolt Mészáros
