

My name is Maria Dudas but my friends call me Mimi. I was born on 7th April 1976 in Topolovgrad, Bulgaria. My mother is Bulgarian. I have graduated from Eötvös Loránd University in Budapest with a degree in Bulgarian language and literature. Now I work at this university as an assistant lecturer. I give lectures on Bulgarian language and grammar. My duties at university include, among other things, building up a network of contacts with universities in Bulgaria. Thanks to these contacts we can ensure students travels and so they can familiarize themselves with another country and culture. All this contributes significantly to increasing understanding between nations.

I myself travel to Bulgaria every year to visit my relatives. I love Bulgaria, the people and the culture. I showed all my friends round Bulgaria and they enjoyed it very much.

I look forward to seeing you in Budapest this summer and will do my best to acquaint you with Hungary.

Много поздравя,

Мария Дудаш
