

Hi, my name is Zsófia Lénárt, but everybody calls me Zsófi. I'm 18 years old and this was my last year in high-school. By the time we meet at the Olympiad, hopefully, I will have already passed my final exams. I did the English part in advanced level and I speak some French, too. In September I wish to continue my studies; I choose the faculty 'Communication and Media'. Probably I'll be a journalist or something like that, but the most important is that I want to do something which makes room for my creativity (which, at least some say, exists). Most cases I'm talkative and I make new relationships easily. I'd like to participate in this event to meet new people in a way that also gives me the opportunity to speak in English. In case I have to present my French speaking skills... I'll try to do my best. In addition it includes lots of travelling which I also like very much. I hope, as a guide, I'll be able to help you any time and answer your questions. All the best for the competition - I can't wait to meet you in July!
