

My name is Zsuzsi Ujlaki. I'm studying international studies and I learn languages with pleasure. I can speak English, Spain and a little German. I spent 7 months in England working as au-pair two years ago and during that time I got new friends and many experiences. I spend a lot of time with my friends, because I like to be in company. I'm said to be always cheerful, and friendly. And I think that to be sincere is also very important. I can fit in with others and make friends easily. In my free time I am gladly outside driving a car, going on excursions or playing with my dogs in the garden when the weather is sunny. I also like reading good books, going out with friends and above all my hobby is skiing. I would like to become a diplomat, because it is a good opportunity to travel a lot and get to know other countries and people. First of all I would like to work in Spain or any Latin-American country. I have applied for this task because I'm glad of the chance to spend time with people and make new relationships and friends. Hopefully it will be fun and we will have a nice time in the summer.
