

My name is Zsuzsanna (Susanne) Jankó, I'm a second-year student at the Eötvös Loránd University in Budapest, I study mathematics. I was on the IMO twice, and I enjoyed it very much, I hope the IChO will be as good as them. I will be the guide of several groups traveling on the same bus. Maybe I can help you :) My hobbies: I like singing (I'm a member of a chorus), reading, playing games, solving the Rubik's cube, and guiding groups. I'm looking forward to your arriving here!
