

Hi! My name is Petra Takács, I'm 19 and I'm in my first year studying chemistry at the Budapest University of Technology. In my spare time I love going to the movies, spending time outdoors, reading, listening to music (live, if possible :-)) and traveling, whenever I can. Thanks to my mother's job, I've lived abroad quite a lot: a shorter while in the USA and France, but most important to me was the 5 years in Finland, as that's virtually where I grew up. So this opportunity to be the guide to the Finnish team in the Chemistry Olympiad seems an ideal combination :) I'm really looking forward to meeting you all, and I'll try to make sure you will have a good time during your stay here!
