

Dear Friends,

My name is Évi Hordós. I will be your guide.

I was born in Budapest. During the secondary grammar school I did my English intermediate written and oral exams. At the same time I was studying Latin, German and sign-language. In 2002 I finished secondary grammar school and I decided I would like to be a pharmacist. I have been studying at Semmelweis University from Sept. 2003 so I also have a lot of subjects that are based on chemistry. :-D

Once a week I go to the gym.

I enjoy talking with people, so I think we will spend fantastic days together.

Looking forward to seeing you in my homeland and I promise I will do my best to assist you
☺

Best wishes, Évi Hordós
