

My name is Adelina Petcu. I am 20 years old. I was born and grown up in Romania. But I moved with my family to Hungary in 1999, and we still live there. I am studying now at Eötvös Loránd University in Budapest German and American English. I am in the third year and I have two more years. It is difficult to say, what I am interested in, but mostly I am interested in foreign languages. Like many other students of my age, I like traveling, listening to music, doing sports, and so on. I like friendly people, but I dislike falsehood and hypocrisy. I prefer not to schedule anything but I will gladly plan in the middle of July the Olympiad.
