

Hello,

My name is Nóra Loncsár. I am a 22-year-old university student and I am doing two majors now: one is International Studies and the other is International Business (in English). At the first one I'm in the second year and at the other one in the first year.

I spent a year in Portugal as an exchange student in a village near Benavente and it was fantastic experience for me. I met a lot of nice people there and made life-long friendships. I also speak English and recently I have started to learn Spanish which after Portuguese is a real challenge for me ☺.

I like hanging out with friends, dancing and getting to know new people and cultures. Now I am studying in Budapest, in the capital, but originally I am from Székesfehérvár, which is a beautiful small city near Budapest.

I wish you a successful preparation and I'm looking forward to meeting you.
