

My name is Peter Schindler; I'm 20 and study international relations (Corvinus University of Budapest). I speak English, German and now I learn Russian. I'm also a member of a special college and I learn there about history and Central Europe, so after graduating I want to deal with these topics. In my free time I like to do some sports (tennis, table tennis, handball, basketball) and music is very important for me – I sing in several choirs, play the piano and the clarinet, but sometimes I just listen to the radio or some other kind of music. It's also characteristic for me that I try to see the world very optimistic and I very often smile (and I think it's very important nowadays because a lot of people can't do this...). I'm looking forward to be the guide of Switzerland and I hope you will have beautiful ten days in Hungary! For this I try to do my best.
