

Hi! My name is Zsófia Tardos, I study maths at Eötvös University. I adore traveling, I have many foreign friends. I take part in an international organization in which young people can find free accommodation for themselves so I have had many guests from European countries. I am very happy to be the guide of the team of Thailand, because Asia is too far so I have never had guests from there. I really like entertaining people, I organize maths camps for children every summer and I have been working as a guide for foreign chess players. I really like world music and I am interested in gastronomy so I would be glad if you could show me some Thai music and traditional recipes. I am really looking forward to meeting you. Bye!
Zsófi
